PROFILE

Creative and results-oriented Front-End Developer with proficiency in **HTML**, **CSS** (including **Tailwind CSS**), **JavaScript**, and **React**. Skilled in **Web design** to craft user-friendly and visually appealing interfaces. Utilizes **Git** & **Github** for version control and collaboration.

MY WORKS <https://github.com/jeetverma07>

In all my work, I aim to:

- Optimize website for maximum speed.
- Following SEO best practices for Accessibility.
- Responsive Design - Work perfectly on all devices.
- Cross-Browser Compatibility.
- Building Reusable Codes.
- Maintaining brand consistency throughout the design.
- Prioritize user experience (UX) by designing.
- Have the ability to collaborate effectively with back-end developers and other team members.

My Portfolio <https://jeetverma.vercel.app/>

- Built this portfolio using React and Tailwind.
- Aimed to design this portfolio as simply as possible while ensuring it remains unique enough to stand out.

WildSpirits <https://wildspirits.vercel.app/>

- Developed this video calling platform as a side project for fun. It's a platform where users pay for video calls & can select the duration of their calls.
